Development Notes

Delivered footage to resident as requested from an active investigation of a car crash in last week of December.

(Continued) Actively attempting to get 2 cameras back online, with support from IT for location for **XXXX School (now requires a site visit, with ladder).**

Setup 2 new cameras. Actively Scheduling maintenance calls for the remaining cameras that are out of service. 1 currently scheduled, 1 near scheduled, 2 others reached out to to get back on line.

- Visited site on Rosemary beginning of December
- Visited Cafe XXXX mid-December.

Setup a cameras@lcpdnola.org support email address (forwards to Brian, Reid, & Ralph)

This months developments:

- Produce a pro/con list as per the Tech Committee's recommendation to determine if using SafeCam Nola Platinum is a good solution
- Prepared paper copy of locations for Sgt. Benjamin, working to automate this.
- Update firmware on cameras and continue getting more cameras cloud recording.
- Get cloud recording bugs worked out
 - Slow cameras are hogging the download workers (slow cameras need to be on a separate queue from faster cameras)
- Goal by end of of month: all cameras back online and at least 28 of the cameras cloud recording (did not reach goal by end of year).
